

Jacqueline, Labrador/Rottweiler cross, cures herself of a tumor

Jacqueline was living in a wellness home, drank optimized PiMag water, slept on pet pads, and took Nikken dog supplements plus the human supplements that were good for her. Even so, a tumor started growing and, 30 days after it was first noticed, broke through the skin. Declared inoperable, her owners were told to let her enjoy her final days. She was going deaf.

One new Nikken product arrived: the Air Wellness Power5. Jacqueline "put herself on" the Nikken air unit, standing in front of it for 15 minutes at a time, many times a day. A slight turnaround was seen in 2 1/2 weeks. 5 days later the tumors were down 80%, gone 10 days later, and her skin healed. These 3 pictures were taken then.

Even though she was 17 and had just recovered, Jacqueline resumed her walks with her owners. Very soon, Jacqueline walked 3 miles and lived a few more healthy, loving years. Her hearing returned. Jacqueline loved her pet pads and, once when they were being washed, dragged out the demo kit to lie on!

Imagine! A dog that prescribed her own cure with Nikken's safe negative ions! (No ozone byproducts!)

Jacqueline was owned by Ginto and Deborah Naujokas in rural Minnesota. Her tumors had developed during cool weather when the windows were closed.
